Heart feels all those years were for me
The will in your eyes feel paradise
I never had that dream in forming
The women are sayin' we're different nicks

But it feels like, feels like you
And it feels like, feels like you
All the people, all your, all of your lies
And it feels like, feels like you

Young, blind, how we try a reason
The end of your cut and fill the dark
But never having dreams or visions
We measure the space and once we say

But it feels like, feels like you
And it feels like, feels like you
All the people, all your, all of your lies
And it feels like, feels like you

And it feels like, feels like you (and it feels like and it
feels like..)
And it feels like, feels like you (and it feels like and it
feels like..)
And it feels like, feels like you (and it feels like and it
feels like..)
And it feels like, feels like you (and it feels like and it
feels like..)
