"The New Process"

Visit "[The New Process](#)" on MotoLyrics.com

Well I hope you wait for the color
You're pushing over me
You're pushing over me but I don't even care
What comes of all this
You're pushing over me
You're pushing over me but I don't even care

Well I, I've been tected in color
You're pushing over me
You're pushing over me but I don't even care
What comes of all this
You're pushing over me
You're pushing over me but I don't even care

But I, I'll be waiting for the color
You're pushing over me
You're pushing over me but I don't even care
What comes of all this
You're pushing over me
You're pushing over me but I don't even..
