See the example at night
And I'm waiting, I don't mention other names
I'm watching people as they change
I'm watching people fade away
When we demuse ourselves
We fall in lines in the middle of the sea
Who paint the pictures of a queen
The way they wanted it to be

'Cause they're building houses and alarms in Tokyo
'Cause they're building houses and alarms in Tokyo

In a free ball game in a house where no one hear the
alarm
I see the purpose come and go
I hear their voices in the cold
And your magazines - they're with people live in cities
by the sea
Where the conscience is clear
You're turning, I could hear

'Cause they're building houses and alarms in Tokyo
'Cause they're building houses and alarms in Tokyo
'Cause they're building houses and alarms in Tokyo
'Cause they're building houses and alarms in Tokyo

'Cause they're building houses and alarms in Tokyo
'Cause they're building houses and alarms in Tokyo
'Cause they're building houses and alarms in Tokyo
'Cause they're building houses and alarms in Tokyo
