They say some things are just left better unsaid  
But fuck it, I'mma go in anyway  
Ha, ha

Chorus:  
Living in the fast life,  
oh yeah, we're riding, oh yeah we're riding!  
Stacking to my cash right,  
oh yeah, we're riding

Check Cali!  
Cause this is the life you live when you're getting paid  
Twelve hundred for my feet, two fifty on my shades  
This is the Cali you're fucking, are we going on a date?  
But either way, bro, she's down to do what he say.  
Just the other day, my shift told me you never hold on  
to shit  
Arguing out of fear of our four years relationship  
It started cause I was selling my new Jag  
When I told her it was the best thing I ever had.  
Just a few months back, living in the fast life  
Oh yeah, we're riding, stacking to my cash right  
My bitch unless she were the boss (We're riding)  
She gonna ride with me until the worlds fall off  
We're riding, we're riding, we're riding!

Chorus:  
Living in the fast life,  
oh yeah, we're riding  
Stacking to my cash right,  
oh yeah, we're riding  
My bitch unless she were the boss  
We're riding, we're riding, we're riding  
She gonna ride with me until the worlds fall off  
We're riding, we're riding, we're riding!

Last month I dropped the chick that ...  
My excuse was that I'm not done playing the games  
But since you make one, you're in the game  
Do anything when you ditch the faith commitment, just  
not in my lane

CaliKidd bro fresh, of the lot, pull up  
You'll see me ride and ... drop the top  
drink the pain away. celebrate and bottle pop  
Barley legal riding dirty like fuck the cops  
No racing, just pacing in luxury  
Cash rules, and I'm out to get it now that is free!  
Got the hottest bitches fucking me, I'm still living luckily  
Thank God for all the ones who put their trust in me!

Chorus:

Living in the fast life,  
oh yeah, we're riding  
Stacking to my cash right,  
oh yeah, we're riding  
My bitch unless she were the boss  
We're riding, we're riding, we're riding  
She gonna ride with me until the worlds fall off  
We're riding, we're riding, we're riding!

Yesterday my mom called me after six months  
First word out of mouth she's pressing charges for  
being blunt  
After reading my article in the newspaper  
Guilt tripping, the black sheep, and the one who she  
hated.  
Feeling in some kind of way that I'll be...  
Can't.. my voice, so she's calling while she faded  
I love you but I don't like you, best way for me to say it  
You know whatever is on my mind, and I'mma fucking  
say it!  
Who told me that, huh?  
I pay my dues, ...  
No niggers that working hard for...  
My real niggers doing daytime caged up  
Say fuck the world do dope, and got their plans fucked  
No tuition money for their kids ...still working fast food,  
bills do  
..I'm a college drop dude, that's cause I know the truth.  
Calli!

Chorus:

Living in the fast life,  
oh yeah, we're riding  
Stacking to my cash right,  
oh yeah, we're riding  
My bitch unless she were the boss  
We're riding, we're riding, we're riding  
She gonna ride with me until the worlds fall off  
We're riding, we're riding, we're riding!
