### "I Can Help You With That"

Visit "[I Can Help You With That](#)" on MotoLyrics.com

If your world's been shattered or somebody treated  
you bad  
You've come to the right place, I can help you with that  
If you need two strong arms to make you feel like you  
never have  
Then come a little closer baby, I can help you with that

[Chorus]

I can't promise you the moon but if you just let me in  
I can promise you won't hurt like that again  
If you want a man you can depend on  
Someone who'll love you back  
Come here baby, I can help you with that

If you feel like crying and think nobody understands  
And you'll need a shoulder, I can help you with that  
If you think you're ready to try and love again  
Don't look any further, I can help you with that

[Chorus]

I can't promise you the moon but if you just let me in  
I can promise you won't hurt like that again  
If you want a man you can depend on  
Someone who'll love you back  
Come here baby, I can help you with that

If you want a man you can depend on  
Someone who'll love you back  
Come here baby, I can help you with that, oh yeah  
Come here baby, I can help you with that  
Yeah, yeah, I can help you, help you with that
