Cold wind coming
Blowing up a storm
Blue moon shining on that man
Lightning up the way home
You follow the light
Walking through the night
And say you need me there

Cold wind coming
All the water freeze
Walking man
Build a fire
Build it in the trees
Show me all you know
Fire in the snow
You need me there
(Sings additional: You need me there
You need me there
You need me there)

You need me
For your own
In your new home
Northward bound
And wind blown
You won't be alone
You need me there

Cold wind coming
Whistling down the mountain
The birds are flying
Sleeping man
Better start your way again
Glad that you know
You're almost home
You need me there
You need me there
You need me there

You need me there

You need me
For your own
(Sings additional:
In your new home
Northward bound
And wind blown
You won't be alone
You need me there

You need me there
You need me there
You need me there

You need me
For your own
In your new home
Northward bound
And wind blown
You won't be alone
You need me

For your own
In your new home
Northward bound
And wind blown
You won't be alone
You need me there
You need me there
You need me there
You need me there)

(Background Singers only:
You need me there
You need me there
You need me there
You need me there
You need me there
You need me there
You need me there
You need me there
You need me there)
