"My Hand Is A Dolphin"

Visit "[My Hand Is A Dolphin](#)" on MotoLyrics.com

Look at the swimming fingers as they linger in the air
They are just happy creatures as they swim both here
and there

They can dance both day and night
As they reach the highest heights

[Chorus]

My hand is a dolphin and it's swimming up and down
My hand is a dolphin and it never has a frown
They can dance both near or far
Watch them swim along like cars
My hand is a dolphin, my hand is a dolphin

Look at these happy creatures as the swim along the
shore

Everyone's waving at them as they all come back for
more

Can't you see they feel just bright
They can't wait for Friday night

[Chorus]

Fish, fish, everybody fish
You look like a fish, you smell like a fish
You taste like a fish, so you must be a fish
Fish lover, fish, and everybody's Russian
I got soul, and I have a purpose in life (get the fish over
here)

My hand is a dolphin and it's swimming up and down
My hand is a dolphin and it never has a frown
They can dance both near or far
Watch them swim along like cars

My hand is a dolphin and it's swimming up and down
My hand is a dolphin and it never has a frown

[Repeat]

Thanks to Tom
