[DAN-E-O]

It's Dan and Spi: the Bash Brothers, here to smash  
busters  
There's nothing you could do to help avoid this mass  
bumrush  
Declarin' war so prepare for some crass ruckus  
Secure your weapons, that's any mic our ass gon' touch  
It's on now! But don't look at me because you started it  
Every line, in every track is some retarded shit  
Every rhyme in every rap: murder and horniness  
Every song you offer is monstrously preposterous  
Our culture, you dishonour it, stupid crews screamin'  
'Bout you'll lose cream when they break into homes of  
fools sleepin'  
Fake thugs, perfect examples of misused semen  
As if you'll see 'em in museums killer dudes be in  
Step on the battle ground and just make sure your side  
is ready  
Although to scrap with Monolith just means you've died  
already  
We crazy like people were when they first heard "Bye  
D'Plenty"  
Crush you like what I got on Tara Chase and  
Namugenyi  
I'm...

[CHORUS: repeat 2X]

Raw! All y'all niggaz, just get ready for war!  
Had enough suckers? It's time we settle the score!  
Doin' it for sure! Lyrics so pure!  
You better believe my nigga, we get raw!

[SPIDAHMAN]

Victim or victor? Shit's off the richter  
We in the mix y'all, this is war!  
Words And Rhythm hit 'em, we up in hell's kitchen  
Chickens with samonilla, niggaz be burnin' biscuits  
Yo speak on (speak on) losing my religion  
Y'all ain't practice what you preach and I ain't believin'  
These heathens and my peoples ain't neither  
For real dog, I ain't no rapper on no soap box

Tellin' you the sky fallin' but seeing the cess pool and  
diving all in  
Defies logic, it's almost over now  
It ain't no perfect world, and never will it be  
But the challenge is for more balance, you feelin' me?  
Get it together before we get it together  
I said what I had to say now so get familiar  
Get it together before we get it together  
I said what I had to say now let the chorus tell ya

[CHORUS]

[BRIDGE]

Do you really wanna take it to the frontline?  
If you want it, you can get it done up one time  
You won't understand what happens when we combine  
Dan-e-o and Spidahman take way your sunshine

[SPIDAHMAN]

Words And Rhythm means WAR, pen is mightier than  
the sword  
You can murder the messenger, but the message ain't  
ignored  
For sure, watch how we mash for Lith  
Handling business like Erick and Parrish Smith  
We have to win, can't give in  
Rise like a Phoenix that's flapping wings  
Tell 'em what's happening: smackin' 'em with an  
acronym  
But in reality, backin' 'em, Partnerz In Rhyme back  
again, Dan begin!

[DAN-E-O]

Attackin' 'em, hackin' 'em up with our rappin' acumen  
No laughin' when we steady crackin' men and bitch  
slappin' 'em!  
Trapped up in a state of imaginin' that they badder  
than Osama Bin  
But in this rap labyrinth, we lappin' 'em!  
Ask your friends, who really likes songs about your  
tech glocks?  
I mean, when you play 'em do you actually expect  
props?  
You'll get dropped, cuz real hip-hop is what I majored  
in  
Whip niggaz so bad that they'd prefer to just be slaves  
again!

[CHORUS]
