They say i am a dreamer more like a visionary
I am fucking up the game
Got that bitch in dictionary
Mister ice cream man no .. and cherries
I am an alien , get to marry
My vision blurry I am spitting curry
These nigger scarier every track that I burry
I am such a .. took the path for a genius
And I think I went mad .. in and out the boutiques
All I do is pop tags in the dispensary for extremely lost
tags
To keep ma skin , where these cameras will be
Down on the haters trying to block my . like ,
They say I am cocky shit so was Sean ..
And I ain't stopping till I hears flesh dropping bones
I ain't one of you niggers to sit around and drop songs
I do it for me my niggers ..
I am from a town where the population vary low
In the .. take drugs till they overdose
When niggers sneak up in your crib like home alone
I swear this shit is whiter than,
And I have been trying to keep my distance
Looking to these people see the shit that they have
witnessed
I think God ask them for forgiveness cause they take
what they want .. for permission
Got the game where I want it down to submission
Creating space in a home .. new edition
Anticipating cause I ain't the average nigger spiting
Won't be another nigger to do it like I did it
I am a dreamer, dreamer of dreams
Music make nigger don't it sound so sweet
Leave the art to the artist
You can't do it like me
I know I make this look easy like 1 2 3
