

Calling, The "Dreaming In Red"

Once upon a time
Somewhere far away from here
I was drowning in a deep sleep
Got no ground beneath my feet
And there's so many faces
I'm New York and I'm Japan
There's so many things that I want to know
But I'll never understand...

CHORUS:

Now I'm dreaming in red
Just drifting away
I'm dreaming in red
Come and take me away

I just got to get it right
Before I make it wrong
Cause I'm breaking out and rising up
While the world is falling down...

CHORUS

I see the sun behind the night, sky
One last moment before I say goodbye...

Once upon a time
Somewhere far away from here...

CHORUS
