Heaven's in your eyes  
And it's begging me to lie  
You're waiting for a little more  
Of those words you wanna hear but..

The silence weighs on me  
And I think it's time to leave  
Before I go, you gotta know  
Why nothing's ever clear

So I'm waiting for you  
I'm waiting to know you  
But I don't even understand myself  
Don't ask me why

You know I have to walk away  
Don't you try to stop and save me  
When it all falls down,  
When it all falls down.  
You know I tried but I can't change  
So go ahead and blame me  
When it all falls down  
Cause it'll all fall down.

In the spiderweb  
I'm trapped by what I've said  
As you can see, I'll never be  
What you really want so...

I'll just hide behind  
This attitude, dissolve my pride  
It's made the choice to keep your voice  
From creeping to my inside

Still I'm waiting for you  
I'm waiting to know you  
Can't forget the power that you have  
What do you want from me?

You know I have to walk away  
Don't you try to stop and save me  
When it all falls down,  
When it all falls down.  
You know I tried but I can't change  
So go ahead and blame me  
When it all falls down  
Cause it'll all fall down.

Even if I tried  
Even if I lied to you  
It wouldn't make it any better  
Well now, even if I lose  
The one that I would choose would be you

Still I'm waiting for you  
And I'm waiting to know you  
But I don't even understand myself  
So don't ask me why,  
Don't ask me why..

You know I have to walk away  
Don't you try to stop and save me  
When it all falls down,  
When it all falls down.  
You know I tried but I can't change  
So go ahead and blame me  
When it all falls down  
Cause it'll all fall down.
