I like the way that you lick your teeth  
Oh it's a dirty better make your confessional  
I like the way that you look at me  
I bet your body moves like a professional  
I love the way you dress in leather and lace  
I love the way you blow the smoke on my face  
I like the way that you challenge me  
Keepin' me to daze then amaze with your pretty little face!

(Look out!)Ain't you such badass baby  
You walk the wire and you play with fire  
(Look out!)Yeah you sexy badass baby  
The stakes are higher when you play with fire  
Ready to fight light up the night! (Badass!)

You got the thighs and you got appeal  
And everybody finds it so unconventional  
You got the eyes and I can't believe  
That anybody could deny the sensational

I love the way you blow the others away  
I love the way you're walking right in my face  
I like the way that you challenge me  
Messin' up my pace in your chase  
Gonna put you in your place!

(Look out!)Ain't you such badass baby  
You walk the wire and you play with fire  
(Look out!)Yeah you sexy badass baby  
The stakes are higher when you play with fire  
Walking on wire higher and higher  
Ain't you such a badass baby  
Ready to fight light up the night! (Badass!)

A lotta lies and the mystery  
A lotta liquor and the lips of a lunatic

A lotta soul in your secrecy  
It says it all and you know that I'm lovin' it

I love the way you blow the others away  
I love the way you blow the smoke on my face  
I love the way that you challenge me  
Messin' up my pace, the chase!

(Badass!) Ain't you such badass baby  
You walk the wire and you play with fire  
(Look out!) Yeah you sexy badass baby  
The stakes are higher when you play with fire  
Ready to fight light up the night! (Badass!)

Ain't you such badass baby  
You walk the wire and you play with fire  
(Look out!) Yeah you sexy badass baby  
The stakes are higher when you play with fire  
Walking on wire higher and higher  
Ain't you such a badass baby  
Ready to fight, light up the night! (Badass!)

(Badass!)

(Badass!)

(Badass!)

(Badass!)
