Night On Fire

gonna paint my face
as I write our name
in fire and flames
tonight world is burning

ah we got no grace
no we got no shame
we follow the fate
of wild and the dirty

the heat of the moment we need it
the beat of my heart can you feel it

the Night is On Fire
the Night is On Fire
we only desire
to turn the flames up higher
the Night is On Fire
the world's a bit brighter
On Fire

gonna entertain
molotov cocktails
we got cheap champagne
we're making the earthquake

gonna celebrate
we annihilate
and light up this place
so bright you will need shades

the heat of the moment we need it
the beat of my heart can you feel it

the Night is On Fire
the Night is On Fire
we only desire
to turn the flames up higher
the Night is On Fire

the world's a bit brighter
On Fire

you're leadin
we follow
we're screaming
this evening
we need it

the Night is On Fire
the Night is On Fire
we only desire
to turn the flames up higher
the Night is On Fire
the world's a bit brighter
On Fire

the Night is On Fire
the Night is On Fire
we only desire
to turn the flames up higher
the Night is On Fire
the world's a bit brighter
On Fire
