Can't you see how I feel baby?
I never felt this way before
Look you know what you did to me
This love's for real

I can't ignore the way I feel about you
Baby, I just want you to be mine
And along waiting for you to touch
So I hope you give this love a try

Can't you see just how I feel
It's for you (It's for you)
Don't you know this love is real
It's for you (It's for you)
Can't you see?

I can't deny the way I feel inside
I've been wondering if you're for real
(And I just a bright smile)
Boy you turn me on
I just wish that you were in my life

Can't you see just how I feel
It's for you (It's for you)
Don't you know this love is real
It's for you (It's for you)
Can't you see?

Baby, maybe you'll be my lady
Dream of us together but my vision's hazy
Whenever you're in need invite myself over
Soft spot in my heart and it's getting stronger
Weather the storm, hun, and nothing will harm ya
My ebony queen and I'm your knight in armor
I wish I could tell you how I feel
A kiss, this love's for real

Can't you see just how I feel
It's for you (It's for you)
Don't you know this love is real
It's for you (It's for you)
Can't you see?
