Ooh oh ha ooh
Been workin' all day long
Tryin' ta get ur hustle on
Society has put da pressure on you
To make it hard for you to do what you do
Gotta let u know
Dat you're not alone and baby dats why I wrote this
song
(I wrote this song) to show you my appreciation for you

(Chorus)
So let me know if you're cool wit dat baby ooh
Lean back a while
Take of your shoes
Relax yourself
Im gonna take care of u

Im gonna show u things u never seen before
Make u feel like a man when u walk thru dat door
Im gonna cook ur dinner, wash ur clothes and change
ur linen (hey hey hey)
Im not finish yet-this only the beginning
Im gonna light ur candles, run ur bath
Im here to take care of u!

Now it's time to set da mood,
To do the things that couples do,
Turn down da lights
I know u don't have a clue-
(Victoria's got a secret for ya)
Gotta let u know,
Never ever let u go
And, baby, dats why I wrote this song(I wrote this
song)
To show you my appreciation for you!

So let me know if u cool with dat, baby hey yeah yeah
Lean back a while,
Take off ur shoes(take off your shoes)
Relax yourself
Im gonna take care of u

Im gonna show u things u never seen before,(before)
Make u feel like a man when u walk thru dat door!(when
u walk thru dat door!)
Im gonna cook ur dinner wash ur clothes and change
ur linen,(Im gonna cook ur dinner)
Im not finish yet, this only the beginning
Im gonna light ur candles, run ur bath,
Im here to take care of u!

(Break)Repeat 2X

Boy u just don't know and it's hard to explain baby(u
don't know)
Love it when u hold me
And u callin out my name!
Boy, I can't control it
Its hard for me hold it
Boy when u look into my eyes
And I begin to fantasize
That's why Im gonna take good care of u!

Repeat chorus 2X
