### "I Am The Way"

Visit "[I Am The Way](#)" on MotoLyrics.com

I am the only way, for you to fade away  
When the pain has come for you, to satisfy your life

I will live inside your head, to the day you realize  
I know what you need to see, I know what you want to  
feel

I am, I am the way x4

I am the only way, for you to fade away  
When the time has come for you, to find a way to die  
I will come and lead the way, when I whisper in your  
head

I know what you need to see, I know what you want to  
feel

I am, I am the way x4

You were nothing till the day you died  
You were no one till you followed me  
Come follow me  
You were no one till the day you see  
You were no one till you followed me, you were nothing  
Till the day you died  
Come follow me

I am, I am the way x10
