

Red Flag

"Russian Radio"

Visit "[Russian Radio](#)" on MotoLyrics.com

I hear a voice, from ten thousand miles away
I have no choice, our love was meant to stay
With or without you, it's easy for me, without a doubt
As i spend my days, searching for ways
Love is on the go, so is radio

Russian radio, how will we ever believe you
Radio, now that we've learned to deceive you

There is a sound, it's underground
Moving out for miles around
There is a sound, it's underground
Let's move it out boys

I hear a voice, from one hundred miles away
Getting so much closer, everyday
With or without you, it's easy for me, without a doubt
As i spend my days, searching for ways
Love is on the go, so is radio

Russian radio, how will we ever believe you
Radio, now that we've learned to deceive you

There is a sound, it's underground
Moving out for miles around
There is a sound, it's underground
Let's move it out boys

I feel our love, is only a smile away
Getting so much closer to me everyday
With or without you, it's easy for us, without a doubt
As we spend our days, searching for ways
Love is on the go, so is radio
