Written by R. Wilson

I wanna take you so far

But they don't want to let us out

But they do...

I don't wanna walk on the highwire

They ain't gonna let us down

But they do...

What I could never believe in

I was never really even

And I forgot about the cost

And then I got lost...

Didn't really wanna live it over

Or even wanna live it down

But I do...
