"Until I Fall Away"

I want to tell whenever I am not myself
its hard to know, how far or if it all could go
I've waited far too long for something I forgot was
wrong
I don't know all the answers to things that I find
or have it within the time
but its all that I have in mind
Until I fall away
I won't keep you waiting long
Until I fall away
I don't know what to do anymore
Until I fall awayeaayyy
My Fear, Pretend, that I'll never be in love again
Its real to me, not like these fools and not like this
scene
I won't burn, or have it within the time
if its all rusted and faded in the spot where we fell
where I thought I'd left behind
its loose now but we could try (da da Da Da DA DA)
Until I fall away
I won't keep you waiting long
Until I fall away

I don't know what to do anymore

Until I fall awayeeayy

When there's no good answers

to no new questions

Another personal Disaster

There's no where to go but down

Until I fall away

I won't keep you waiting long

Until I fall away

I don't know what to do anymore

Until I fall awayeeaaayyyy
