The air tonight (yea) it smells of snow. With your
Demeanor, your body language, your fake expressions
are
So cold. So what you trying to prove? What you try to
say
It like you mean it. You act so misleading. This isn't
You. This isn't you.

The leaves are changing, they're different colors and
Everything is fading fast. Like your demeanor, your
body
Language, your fake expressions cannot last. So what
you
Trying to prove and who the hell are you? So what you
Trying to prove? This isn't you. This isn't you.

You can fake it, you can fake it but it's just not true!

So where you gonna run? Where you gonna hide, when
your
Past is there by your side. Where you gonna run? What
you
Gonna do? When your past is waiting there for you!
This
Isn't you. This isn't you.

The way you fake it, the way I take it. The way we both
Act like nothing's wrong!
