You are needed here, you are needed over here.
I think i'm on my way to die, there's more than one safe
way to drown.

But you breathe easy, you make it seem so easy,
I wanna learn it, please go ahead and teach me.

We move every fear, we move every aching fear.
I wanna give this one last try, there's more than one
safe way to die.

'Cause you breathe easy, you make it seem so easy.
I wanna learn it, please do teach me.
And you love easy, you make loving seem easy.
I wanna learn it, please go ahead and teach me.

I sit quite by the morningsun, i said said 'What is taking
you so long?'
I shared shared, shared another tear, I cried one or two
many tears.

I sit quite by the morning sun, i said said 'What is
taking you so long?'
I shared shared, shared another tear, I cried one or two
many tears.

I sit quite by the morning sun, i said said 'What is
taking you so long?'
I shared shared, shared another tear, I cried one or two
many tears.

I sit quite by the morning sun, i said said 'What is
taking you so long?'
I shared shared, shared another tear, I cried one or two
many tears.
