I met her in september
On the way back to my home
The night was so starry
It seemed as the moon pushed away all the clouds
And the sky wasn't leaden anymore
Sit down with me on the grass
You can see that I'm trembling to think of it
You're close to me than I can realize
That you're not here with your mind

Are you awake enough to drive
This could be the longest night
I've got a story to tell you
And it's a better way

The time is passing by
And I'm still in this fairytale
I aim for a happy ending
It makes me feel like it's raining inside of me
I want to have it all
I want it all

Sit down with me on the grass
You can see that I'm trembling to think of it
You're close to me than I can realize
That you're not here with your mind

Are you awake enough to drive
This could be the longest night
I've got a story to tell you
And it's a better way

You're not making it easy
You're not making it...
