At the end of an era
The First thing to go
Are the heads of our leaders
Kicked down in the road...

On the day of reckoning
When we've struck & won
Watch close as their heroes
Go crashing down on the pavement...

The workers in Poland rose
& in Hungary too

Somoza & Jose fell
... Azania coming soon!

Kick over the statues
And the tyrants die
Wave bye bye with a hammer
To their heroes

The first act of freedom
All over the world
Is to topple the statues
Kick the bosses over
