"Lean On Me!"

Visit "[Lean On Me!](#)" on MotoLyrics.com

Memories of years gone by
Dashed hopes & a dream that died
Spirit pulled us through
Times were hard but we fought as one
Now those days of hope are gone
You're resigned to lose

Success come to the strong
The struggle's hard & the struggle's long
Lean on me & I will pull you through

Sad signs of a sad despair
A wildcat here & a wildcat there
Weak in isolation, short lived inspiration
It's an old tale told ten thousand times
But while we're split we waste our lives
Together we've a world to win!

Success come to the strong
The struggle's hard & the struggle's long
Lean on me & I will pull you through

We may argue right & wrong
But together we are strong
A flame that can't be dimmed
It's not in order to survive
You've got to lean on me
You can fight alone without solidarity

Success come to the strong
The struggle's hard & the struggle's long
Lean on me & I will pull you through
