Be free
Stay true (stay true)
It's clear
Be free
No fear
Be free

Everybody
Come and join the queue
I got some good advice that I'm gone give to you
When you're feeling like there's nothing you can do
Try to reach inside and you will find the truth

Don't just sit there
Complaining about your life
Time to stand up
Come on, you have got to fight
If you're feeling like you want to make it through
Learn to swim or else the tide will cover you

When you wake up every morning
Can't you see the sun is dawning
Feel it coming
No more going through the motions
Ride the waves within the ocean
There's a new way
It's your destiny

(Say what you want)
You know it's all that really matters
(Take what you need)
This is your time... this is your time
(Open your eyes)
To the crossroad that's in front of you
Searching for
A reason why
The answer's deep inside

Don't let chances pass you up
Hesitating
Anything that you want

Anything that you need
Life might pass you by while you're
Contemplating
Anything you want
Anything you need

Can't you see your destiny
Lies in your hands?
Anything that you want
Anything that you need
All you ever dreamed of is
Out there waiting
Anything you want
Anything you need

Now I know you're hearing
What I say is true
You can have anything you want
It's up to you
So much power
Lies deep inside of you
Just believe in yourself
You know what you must do

Trust your feelings
And listen to your heart
Don't you ever stop
Until you reach the top
Your destiny
She's calling out to you
There is no limit
So reach out and touch the moon

When you wake up every morning
Can't you see the sun is dawning
Feel it coming (feel it coming)
No more going through the motions
Ride the waves within the ocean
There's a new way
It's your destiny

(So what you want?)
'Cause it's all that really matters
(Take what you need)
Now is the time... Now is your time
(Open your eyes)
At the crossroad that's confronting you
You're looking for
The reason why
The answer's deep inside

Don't let chances pass you up
Hesitating
Anything that you want
Anything that you need
Life might pass you by while you're
Comtemplating
Anything you want
Anything you need

Can't you see your destiny
Lies in your hands?
Anything that you want
Anything that you need
All you ever dreamed of is
Out there waiting
Anything you want
Anything you need

(Be free)
Don't let nobody take control of you
(Stay true)
Be who you are
Know what you want to do
(Be free)
A gooder time is not too far away
Ooo, yeaah
(Be free)
To let nobody take control of you
(No fear)
Don't be afraid to change the life you know
(Be free)
A freer life will always send you to your path to the
Shore
The way

Don't let chances pass you up
Hesitating
Anything that you want
Anything that you need
Life might pass you by while you're
Comtemplating
Anything you want
Anything you need

Can't you see your destiny
Lies in your hands?
Anything that you want
Anything that you need
All you ever dreamed of is
Out there waiting
Anything you want

Anything you need

Don't let chances pass you up
Hesitating
Anything that you want
Anything that you need
Life might pass you by while you're
Contemplating
Anything you want
Anything you need

Can't you see your destiny
Lies in your hands?
Anything that you want
Anything that you need
All you ever dreamed of is
Out there waiting
Anything you want...
