We can't
We can't back down (x4)

Not right now
We can't back down
Not right now
We can't back down
We can't back down

Don't close your eyes
We're all in this together
whatever they draw the line
We're not gonna straddle across it
Or lose it

We can't back down
There's so much to take
This is serious
Don't walk away
We can't pretend it's not happening
In our backyard
Our own home plate
(No way)
We can't call out
(Way to call out)
Do you hear your name?
(no)
I'm not confused
Let's win this thing
We can't back down
There's so much to take
Don't walk away
Don't walk away, yeah

Don't get me wrong
I don't like confrontation
I'd rather we all just get along
Music should be undivided, united

We can't back down
There's so much to take

This is serious
Don't walk away
We can't pretend it's not happening
In our backyard
Our own home plate
(No way)
We can't call out
(Way to call out)
Do you hear your name?
(no)
I'm not confused
Let's win this thing
We can't back down
There's so much to take
Don't walk away
Don't walk away, yeah

We got a situation that we can't ignore
'Cause ignorance is not bliss
We don't have to take this,
(no)
With every big decision
Comes in equally important share of the risk
We gotta take this

We can't back down
There's so much to take
This is serious
Don't walk away
We can't pretend it's not happening
In our backyard
Our own home plate
We can't call out
Do you hear your name?
I'm not confused
Let's win this thing
We can't back down
There's so much to take
Don't walk away
Don't walk away
We can't back down

We can't back down
Not right now
We can't back down
