Where can I run to find an escape  
I've had a very busy day  
I need some fun, some private space  
I want to get away

To someplace where  
There isn't a care or a worry  
But it must be some place near  
'Cause I wanna go in a hurry

Do you wanna get away, do wanna escape  
I can help you, I'm your lover, oh  
Do you wanna get away, my love can take you some  
place  
Where you'll never be discovered (Do you)

I wanna get away, yeah  
I wanna get away, yeah

No time plan an exotic trip  
To an island in the sun  
'Cause where can I go and be back again  
By the time tomorrow comes

Somewhere to find  
A holiday is the question  
Baby, would you mind  
Repeating your lovely suggestion

Do you wanna get away, do wanna escape  
I can help you, I'm your lover, oh  
Do you wanna get away, my love can take you some  
place  
Where you'll never be discovered (Do you)

Do you wanna get away, do wanna escape  
I'll help you leave it all behind you  
I know a place in paradise  
Where even time ain't gonna find you (Say yeah, say  
yeah)

Do you wanna get away  
(Yes, I wanna)  
Do you wanna  
(Yes, I wanna get away, yeah)

I do want to  
You do want to get away  
I will take you  
You will take me too

Do you wanna get away, do wanna escape  
I can help you, I'm your lover, oh  
Do you wanna get away, my love can take you some  
place  
Where you'll never be discovered (Do you)

Do you wanna get away, do wanna escape  
I'll help you leave it all behind you (I really wanna get  
way)  
I know a place in paradise  
Where even time ain't gonna find you (Say yeah, say  
yeah)

Do you wanna get away, do wanna escape  
I can help you, I'm your lover, oh  
Do you wanna get away, my love can take you some  
place  
Where you'll never be discovered (Do you)

Do you wanna get away, do wanna escape  
I'll help you leave it all behind you (I really wanna get  
way)  
I know a place in paradise  
Where even time ain't gonna find you (Say yeah, say  
yeah)
