Come catch me, babe
I'm falling
Come and save me, baby
I'm calling.

Come and be with me, babe
Come and be with me, babe
Come as you are.

Come catch a cloud, babe
Don't let me fade away
Don't let me fade away.

Come catch a feeling
It's electrifying me.
Eyes wide open
I'm dreaming.

Free falling baby
Don't let me fall on down
Free falling baby.

Come touch me, baby
I need to feel loved
And come hold me, babe
I need to feel loved
I need to feel loved.

Come touch me baby
I need to feel loved
And come hold me, babe
I need to feel loved...

Come catch a fire
Don't let me fade away
Come catch a fire, babe

Don't let me fade away.

Come catch a feeling
Left a fire in me
Eyes wide open
I'm dreaming.

Free falling, baby
Don't let me fall on down
Free falling, baby
Free falling, baby.

Come touch me, baby
I need to feel loved
And come hold me, babe
I need to feel loved...
