"In The Moonlight"

The stars are falling from the sky
And you're the reason why
The moon is shining on your face
And I finally think it found it's place

Chorus:

Cause maybe baby
I just wanna do you, do you
Do you wanna do me, do me?
Underneath the moonlight, moonlight
Tonight..
And now we're hiding in my car
I let you see my scars
Escape the dark for just one night
Your heart makes me explode with light

Â– Chorus Â–
Baby maybe
Maybe I will steal you, steal you
Just so I can feel you, feel you
Maybe that will heal you, heal you
On the inside
Underneath the willow tree
Wearing nothing else but me...
