Burning out at the speed of sound
With the throttle down on a midnight drive
Blurring lines, missing all the signs
Running out of time, trying to stay alive

There's a light ahead and it's turning red
Got the cry of death screaming in my head
I should take it slow, I should get control
But I just can't stop

CHORUS:

I get high on the danger
I get off on the speed
But this fast lane addiction
I believe that it's killing me
It's tearing me down
Like some deadly disease
This fast lane addiction
I believe that it's killing me

It's pouring now, feel it coming down
Think I'm gonna drown in this life I'm leading
Another day try to kill the pain
But it's all in vain, can't stop this feeling
Better hold on tight, it's a crazy ride
If you wanna fly with me tonight
Sanity keeps calling me
But I just can't stop

CHORUS

Driving a hole through my soul
Spinning out of control
Getting high, passing by all the dreams that I told
And I'm dying inside from this lie that I'm living
Oh yeah

CHORUS

Killing me
Killing me
