I know you've been waiting years
You don't need to wait no longer
Sick of sounds so thin and weak
Well, we got something stronger

Muscle music - long and hard
Muscle music
I'm talking about
Muscle music - strong and lean
Muscle music - do know what I mean?
Oh, muscle music
Muscle music
Muscle music
Muscle music

Work your body
Work your body 'till it drops
You can't buy this stuff in shops

You gotta feel the pain
Feel the pain
Give everything
And then you do it again

With muscle music - long and hard
Muscle music
Oh, I'm talking about - muscle music
It's strong and lean
Muscle music
Do you know what I mean?
Oh, muscle music
Do you know what I mean?
Muscle music
Do you know what I mean?
Muscle music
Do you know what I mean?
Muscle music
Do you know what I mean?

Muscle music just gets stronger
You've been flattened by a song, yeah

Every note is forged from sweat
Is muscle hard? You bet!

Muscle music
Yeah, it's long and hard
Muscle music
'Cos I'm talking about
Muscle music
Stong and lean
Muscle music
Do you know what I mean?
Oh, muscle music

Do you know what I mean?
Muscle music
Do you know what I mean?
Muscle music
Do you know what I mean?
Muscle music
Do you know what I mean?

Pump it up
Pump it up, you all

I said:
Pump it up
Pump it up, you all

Work your muscle
Oww, do the muscle hustle
Oww, work your muscle
Oww, do the muscle hustle
Do it again, yeah

Gonna spend my whole life through
Listening to
Muscle muscle...
Gonna spend my whole life through
Listening to
Muscle muscle...
Gonna spend my whole life through
Listening to
Muscle muscle...
Gonna spend my whole life through
Listening to
Muscle muscle music
