This is a song about the two loves of my life.

So this is how the story goes
Want everybody to know
Love skittles and combos
So bring some to our next show

From our head down to our toes
We love skittles and combos
so if you wanna see our faces glow
Just bring some to our next show

Deny us combos
Refuse us skittles
I admit those words hurt a little
But we know it'll be ok
If you just send some our way

(spoken)
Uh, makes me hungry.
Makes you hungry?
