Ridin' at full speed that thrills me so
me and my machine we've really got to go together
I can't sit at home and waste my time
I've got to set off
man
even when it's stormy weather

I can fly in the sky
I can fly in the sky
I can fly in the sky and I can get me high.

Ridin' on the highway girls go by
I'm feelin' like a man and it's really gonna take me
higher.
Lookin' up the trees that pass me by
feelin' like a bird 'cause risin' up is my desire.
