Now that I know what I know, I know I'll always love you  
Now that I see what I see I see it will always be  
Now that I got what I got I know I had it all along

Midweek morning time I wake up next to you  
With your head on my pillow and your arms around me,  
Oh baby it's so warm  
And I've looked all around  
Seeing nothin but big mouths with something to prove  
Never come close to havin anything on your  
No baby not even close  
Still I lay here thinking about the way I thought it would  
be  
But all my planning aside

Now that I know what I know, I know I'll always love you  
Now that I see what I see, I see it will always be  
Now that I got what I got, I know I had it all along

And I'll be your ground if you'll be my muse I can tie on  
to  
You follow me and I'll follow you  
Yes I'll follow you  
Still I lay here thinking 'bout the way I used to be  
And man baby with you I've come a long way

Now that I know what I know, I know I'll always love you  
Now that I see what I see I see it will always be  
Now that I got what I got I know I had it all along

And it's all a trick till you figure it out  
I couldn't hear myself thinking till I started to shout

Now that I know what I know, I know I'll always love you  
Now that I see what I see I see it will always be  
Now that I got what I got I know I had it all along

Now that I know what I know, I know I'll always love you  
Now that I see what I see I see it will always be  
Now that I got what I got I know I had it all along
