If I could rewrite history
I would've gone to Sadie Hawkins when you asked me
I would've told the other girls that I could not be
With someone else
If I could rewrite it
All of the time that passed without you was my worst
bet
Oh I would change it up so that I don't have regret

Dance with me, we could take back all the time we lost
Don't you see, that you've got me
And next time you're free, girl we'll rewrite history

Start a new story,
Girl you got no idea what seeing you did for me
Didn't expect I'd see your face again but you're here
And I can't say that I'm surprised to feel this way
Let's turn the pages
Oh just seeing you tonight is so outrageous
Oh yeah, your face in the moonlight is looking
So divine now

Dance with me, we could take back all the time we lost
Don't you see, that you've got me
And next time you're free, girl we'll rewrite history

Of all the things I wish that I could say
I wish that I had told you how I love your face
Your eyes, your lips
The way they work with mine
We're gonna get it right this time

Dance with me, we could take back all the time we lost
Don't you see, that you've got me
And next time you're free, girl we'll rewrite history
