It hasn't felt quite right, no not just yet  
Butterflies inside, ever since the day we met  
I know that you're the one, with you it will be  
I hope you feel the same girl, the same way about me

It's gonna feel great inside, angels will be cheerin'  
Starry night, just like we were dreamin'  
Pillow fight, everything is right because  
You're the only one for me, only one for me

Love it always starts as something so pure  
You take things too far, and it's hard to cure  
I wanna treat you like a lady girl, the way that you  
deserve  
I reach over and I grab the wheel right now  
Before we start to swerve

It's gonna feel great inside, angels will be cheerin'  
Starry night, just like we were dreamin'  
Pillow fight, everything is right because  
You're the only one for me, only one for me

Only one for me, only one for me

Patience will show us true love  
Just keep our eyes fixed on Him above

And open our eyes too love, drive the open highway  
Made for us, the only destination  
Deeper in love, everything is right because  
You're the only one for me, only one for me
