Right about now, is when I get those feelings
Start missing you, I'm heading up North, girl
Through Virginia, do you think I could swing through?
Cuz I'm missin' you, and I need to

You say that we could never work out
I say we're wrong
Get ready now cuz babygirl I'm comin' on strong
Like the melody to your favorite song

Open-heart girl, surgery is what I need
To save this soul inside
I'm losin' my love fast
We're meant to be
Now don't you tell me we've already tried
Cuz I'm missin' you
And I need you

You say that we could never work out
I say we're wrong
Get ready now cuz babygirl I'm comin' on strong
Like the melody to your favorite song

You make me feel like a Titan, girl
And I've loved you all along
The only thing that's been worth fighting for
I've loved you all along

You say that we could never work out
I say we're wrong
Get ready now cuz babygirl I'm comin' on strong
Like the melody to your favorite song
