### "The Blue And The Grey"

Visit "[The Blue And The Grey](#)" on [MotoLyrics.com](https://MotoLyrics.com)

This old flame it burns like the way that you promised  
forever Didn't you yeah We took some turns years they  
separate but let these words be a tether

I hope that you stay here through the hurricane I hope  
that you stay I've seen the darkest days through the  
blue through the grey. Stay

If you believe we have a shot the only way it works is  
giving everything you've got you know it's true. A love  
that can't be left behind someone else like you's  
impossible to find

I hope you stay here through the hurricane I hope that  
you stay I've seen the darkest days through the blue  
through the grey. I hope that you stay here through the  
hurricane I hope that you stay I've seen the darkest  
days through the blue through the grey. Stay
