I am a monster, born to gobble you up inside  
I am a monster, in your closet you know I hide  
I make you ache with guilt and shame  
I am something you can't tame  
Try to pretend that you're not scared  
Confront me now if you dare  
I can't help it, and you can't help it  
I can't help it, come out, come out..  
I can't help it, and you can't help it  
I can't help it, come out now!

I am a monster, until you face what you know is true  
I am a monster, and I am just a part of you  
The pain will get worse everyday  
Unless you make me go away  
I'll feast on you forever more  
Getting fed while you get sore

I can't help it, and you can't help it  
I can't help it, come out, come out..  
I can't help it, and you can't help it  
I can't help it, come out now!

I am a monster! I am a monster...  
I am a monster... I am a monster!
