Now that I know what I know, I know I'll always love you
Now that I see what I see I see it will always be
Now that I got what I got I know I had it all along

Midweek morning time I wake up next to you
With your head on my pillow and your arms around me,
Oh baby it's so warm
And I've looked all around
Seeing nothin but big mouths with something to prove
Never come close to havin anything on your
No baby not even close
Still I lay here thinking about the way I thought it would
be
But all my planning aside

Now that I know what I know, I know I'll always love you
Now that I see what I see, I see it will always be
Now that I got what I got, I know I had it all along

And I'll be your ground if you'll be my muse I can tie on
to
You follow me and I'll follow you
Yes I'll follow you
Still I lay here thinking 'bout the way I used to be
And man baby with you I've come a long way

Now that I know what I know, I know I'll always love you
Now that I see what I see I see it will always be
Now that I got what I got I know I had it all along

And it's all a trick till you figure it out
I couldn't hear myself thinking till I started to shout

Now that I know what I know, I know I'll always love you
Now that I see what I see I see it will always be
Now that I got what I got I know I had it all along

Now that I know what I know, I know I'll always love you
Now that I see what I see I see it will always be
Now that I got what I got I know I had it all along
