Whether the storm ...
Now your heart is so dry ..
Either I am dearly departed
Say a reason why you should take a ...of thing
.. you meet the .. of every heartache...
Now hope is unavailable
She is so dumb, her friends call her flat,
Losing her, checking her...
Can't lose her, I gotta bring her back
I'm trying, but don't think I don't get my response.

Bridge:
I'm just giving in, heart is failing
But I can't let her slip away,
You've been hanging on your last leg,
Now you got me,
I'mma give you just what you deserve, baby!

Chorus:
Oh, she needs love and she can't let go
Still going but the wounds won't close,
Got her feeling like this,
No chance for her, for her!
Beauty is so scared, so scared
How can a beauty be so scared?
You're still a beauty and so scared
Why not see beauty, cause scared, so scared
But I'll show you the perfect you are!

..shot down makes us so hard to ..
Trust is the...
Let me show you how I could just
Bring you back to life, save you!
Telling me it's a lost cause come on we go
Some love's been fatal, you try to...
So hard to let go,
Condition so critical.
She is so dumb, her friends call her flat,
Losing her, checking her...
Can't lose her, I gotta bring her back
I'm trying, but don't think I don't get my response.

Trying but don't think I'm getting a response

Bridge:

I'm just giving in, heart is failing
But I can't let her slip away,
You've been hanging on your last leg,
Now you got me,
I'mma give you just what you deserve, baby!

Oh, she needs love and she can't let go
Still going but the wounds won't close,
Got her feeling like this,
No chance for her, for her!
Beauty is so scared, so scared
How can a beauty be so scared
You're still a beauty and so scared
Why not see beauty, cause scared, so scared
But I'll show you the perfect you are!

You constantly disbelieve,
Thinking that you're too flat to get involved
Baby let me take that away!
Just know that I got you!
You don't gotta cover up, ...

Chorus:

Oh, she needs love and she can't let go
Still going but the wounds won't close,
Got her feeling like this,
No chance for her, for her!
Beauty is so scared, so scared
How can a beauty be so scared
You're still a beauty and so scared
Why not see beauty, cause scared, so scared
But I'll show you the perfect you are!
