Something is happening here  
Someone is hurting deep inside  
How do I get out of here  
Someone is mumbling and speaking words  
That make no sense  
I been thinking it over and over again  
What am I supposed to do When all I want is you, and

I just wanna keep my promises to you  
Baby every single day I'm standing here  
Trying to get through  
I wanna give you whatever it takes to be closer to you  
baby I just wanna keep my promises to you

Something happened tonight  
i wanna know what's going on

Don't tell me I'm the only one  
That's keeping it all inside  
Just say the word, please talk to me  
If it's hopeless make me see  
Cos what am I supposed to do  
When all i want is you, and

I just wanna keep my promises to you  
Baby every single day I'm standing here  
Trying to get through  
I wanna give you whatever it takes to be closer to you  
baby I just wanna keep my promises to you

Everything I'll give you, I'll give you  
Everything I'll keep my promises
