

Restrict This "California"

Visit "[California](#)" on MotoLyrics.com

See the street lights on the highway
Are getting darker everyday
I always felt like somthings missing
But now there's nothing left for me

2000 miles from that place I love
Seems so far away

Take me home to California
There's no place I'd rather be
Is it warm in California
For a kid just like me

They always said we'd never make it
They said we'd never reach the stars
But friday night we'll be playin
Down on sunset boulevard

I've been looking for that place called home
Seems so far away

Take me home to California
There's no place I'd rather be
Is it warm in California
For a kid just like me
