He is unfit to rule  
Take up arms, we march tonight  
For the throne of England  
The Lord is at our side

Burn the child, this is God's will  
It's time to take the crown back

It's over  
The reign of Lancaster is over

No longer fit to rule a country  
He must be torn from his position  
Leaving a child to hold the throne  
Men of York lead us to revolution

Henry, you're just a baby, baptised in blood and hate  
For your country and your kingdom you will die at hand  
of  
the new lords of England

Full-scale invasion  
We storm the castle come nightfall  
Tonight, York will hold the kingdom  
England in our hands
