"Always Never"

Visit "[Always Never](#)" on MotoLyrics.com

If I keep waitin' for you like I've done before
Will you walk out the door as I'm comin' in
Rivers of people curl, will I see through the swirls
If it's a small world, how do I miss you

Always, always, it never works out
Never, never, I'm always in doubt
You always never do care about the one you can't see
I might as well be make believe

Chorus:

I'm dreamin' of impossible stuff
I need you too much, oh but that's what love does
I'm fighting with fate, always on your tail
It never does any good, oh, I used to think it would

And if I don't hold back, will you see where I'm at
Oh, will you get here fast or leave me hangin'
Feelings become a pest, I just forget the rest
I have become a mess and I keep thinkin'

Always, always, it never works out
Never, never, I'm always in doubt
You always never do care about the one you can't see
I might as well be make believe

Repeat Chorus

And now I'm slowly findin' out fairytales are purely
fictional
What made me think if I could just scream loud
I would never be the one you can't see
I might as well be make-believe

Repeat Chorus
