If he wants to catch my eye and keep it on him  
If he wants me to fall only for him  
If he wants to take your place, if he wants the past  
erased  
If he wants to light the flame, he's gotta be one in a  
million

Chorus:

He's gotta be another you  
He's got a lot to live up to  
He won't know what he got himself into  
He's gotta be  
Oh, just like you

If he wants loving me to be easy  
Oh, no matter who he turns out to be  
If he wants to have a chance, if he wants to make it last  
He better show me fast that he is one in a million

Repeat Chorus
