On a train, we're leavin'
Next stop's in Venice
Tell me again all your secrets
3 AM conversation
You don't know how I've waited
To talk to you and oh, I've waited for

Chorus:
My lipstick on your pillow
Inside jokes and your cologne
And things like catchin' fireflies
Royal blue skies while you and I collide

Let's get lost on purpose
Drive around and feel the rush
Let's make the most of our fulfilled hopes
Sharin' drinks and our dreams
Worshipping what we see
In each other we have everything

Repeat Chorus

I leave notes in your pocket
Watch you sleep, the way you eat
I savor every moment
Even while we watch tv
And I love our adventures
The way you are, it pleases me
Somehow I can remember oh, everything

On a high, won't come down
How could I when you're around
You make up for lost time
Before I could even try
To fall in love with somebody
But I can trust you
And I do, oh, 'cause I can find

Repeat Chorus
