

Rev 7

"We Are Righteous"

I am not ashamed
No matter what they say, I'm not too busy
To help you on your feet
If you are thirsty, I got what you need, take a drink
Living water for you

You will never thirst again, never again
Fill your cup, overflow
Chorus
We are righteous, we are righteous
We will live by faith
Not by what we see.

You and I may be, encouraged
By each other not to be unaware
The time is now my friend
To share the good news, spread the gospel
Like they did back then

You will never thirst again, never again
Fill your cup overflow

Chorus
Repeat
