(ad lib)

When we're together you look at me

And I see forever with you

One thing I know you got me hooked

There's nothing that I wouldn't do, yeah

Every day I wanna be with you

And every day I just wanna give you

Much more love

Much love

It's all for you, baby

No one makes me feel like you do I got much love

It's all for you, baby

I can't hide what's inside for you

Baby, get with me so you can see

That no one is for you like me, no. no

Don't be afraid, my love is real

I've got something you can feel, yeah

Every day I wanna be with you

Every day, baby, i-

And every day I just wanna give you

I just wanna give you more love

(* repeat 2 times with ad lib)

Break it down, yeah

Come on now, get with it

I just wanna give it, baby

Come on now, get with it

I want you to hit it, baby

(*repeat and fade with ad lib)
