You are following me  
Under crusted teeth (?)  
No no no this cannot be  
You'll never know who I am

Ways to make you see  
It's not that love has failed me  
Ways to make you see  
It's not that love has failed me

Do you touch her  
Like you touch me  
Do you corrode her  
Like you corrode me

Ways to make you see  
It's not that love has failed me  
Ways to make you see  
It's not that love has failed me

I'm not the first  
One falling past (?)  
Voice that i've heard  
(how my?) Disguise (?)  
I'm not (hurt?)  
I'm not afraid (?)  
I'm not (afraid / praise?)  
I'm not afraid (?)
